

A Mysterious Letter

Dear helpful people,

A good friend of mine was flying around your local area and assured me that you all would be the perfect people to help me.

You see I am very far away from my old home and my grandson. My house was at the bottom of his garden so we were always close to each other. I would greatly appreciate it if you could check on him for me. I want to make sure that he is OK.

Syd came with me when I travelled here. My new home is a wondrous place and I find it very inspiring for my paintings. The air is warm and the sun always shines brightly. There is plenty of greenery to look at and even an impressive waterfall. It is a brilliant place for swimming. I'm never alone here as such incredible creatures are always around me.

I do miss seeing Syd every day though. We always had so much fun together when he came around but he cannot visit me in my new home.

Please can you visit him and write me a letter back to let me know how he is? Don't worry about sending it through the post. My friend is an excellent flier and will bring it to me.

Thank you,
Grandad
