

Recognise and Describe 3D Shapes

To name and describe properties of 3D shapes.

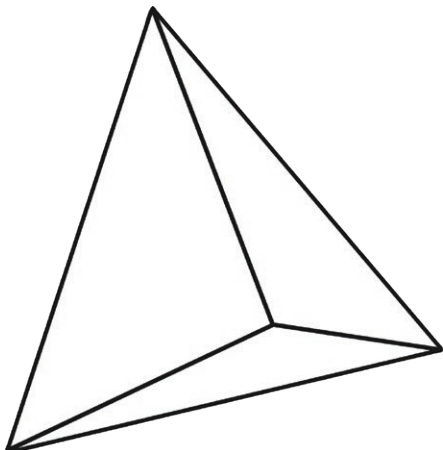

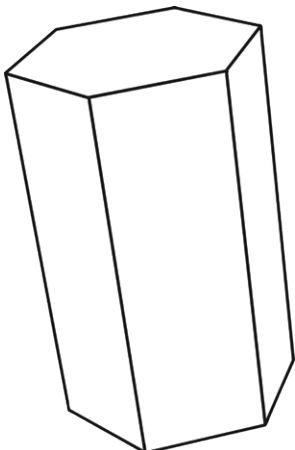

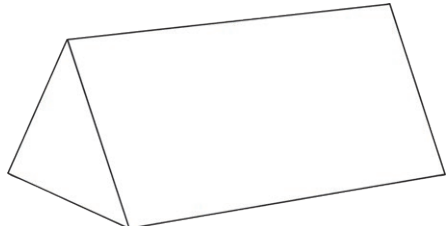

Name of 3D Shape _____	Name of 3D Shape _____	Name of 3D Shape _____
		
It has... ☐ edges ☐ vertices ☐ faces	It has... ☐ edges ☐ vertices ☐ faces	It has... ☐ edges ☐ vertices ☐ faces

Recognise and Describe 3D Shapes

To name and describe properties of 3D shapes.

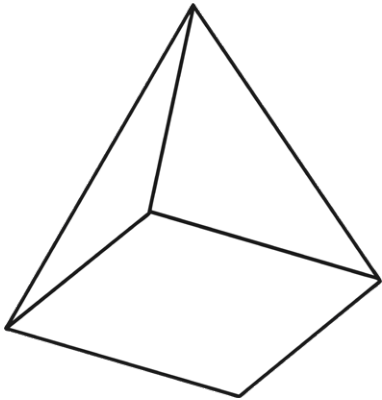

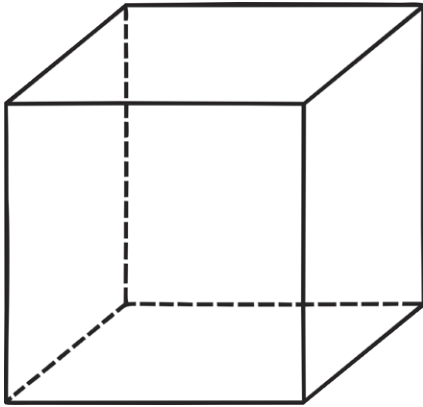

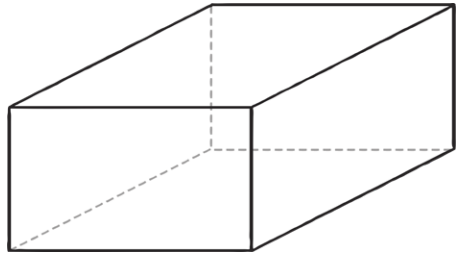

Name of 3D Shape _____	Name of 3D Shape _____	Name of 3D Shape _____
		
It has... edges vertices faces	It has... edges vertices faces	It has... edges vertices faces

Recognise and Describe 3D Shapes

To name and describe properties of 3D shapes.

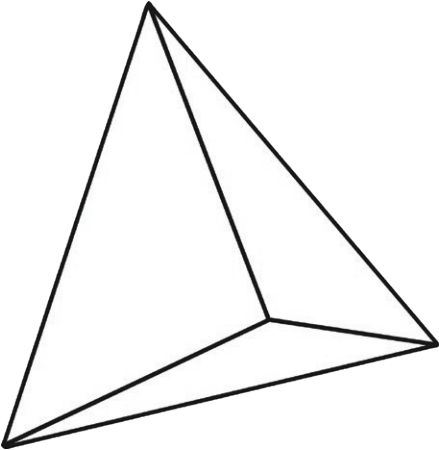

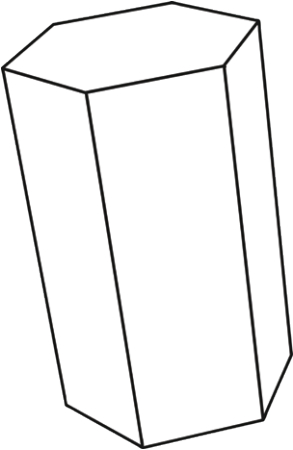

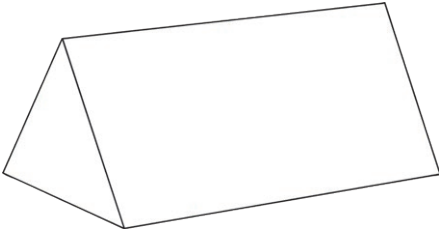

Name of 3D Shape	Name of 3D Shape	Name of 3D Shape
		
It has... edges vertices faces	It has... edges vertices faces	It has... edges vertices faces
Is it a prism? Yes No 2D shapes of faces: _____ _____	Is it a prism? Yes No 2D shapes of faces: _____ _____	Is it a prism? Yes No 2D shapes of faces: _____ _____

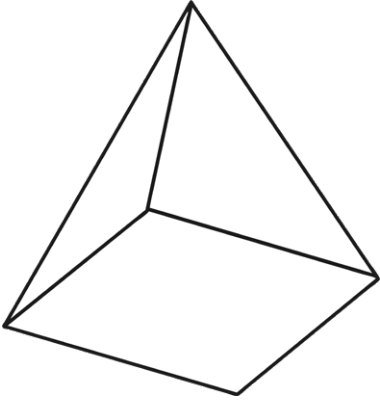

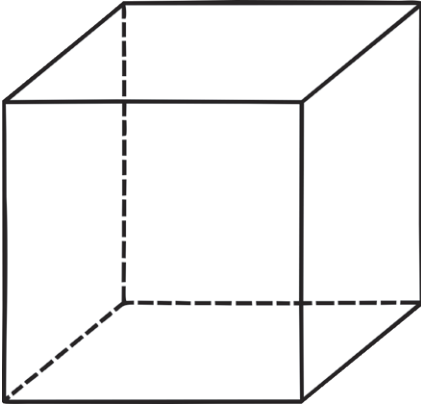

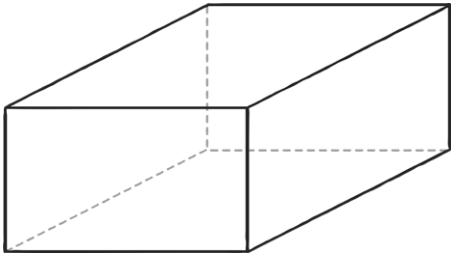

Recognise and Describe 3D Shapes

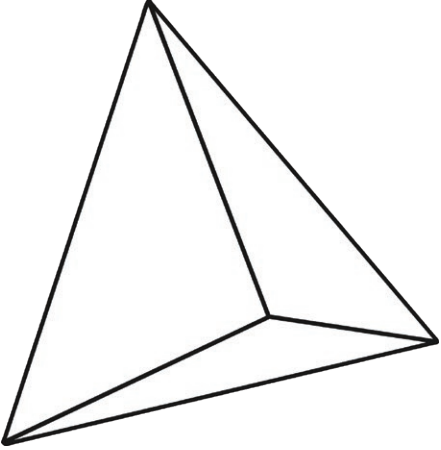

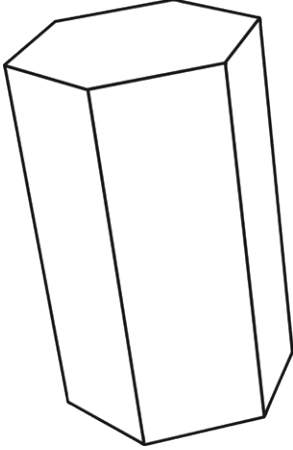

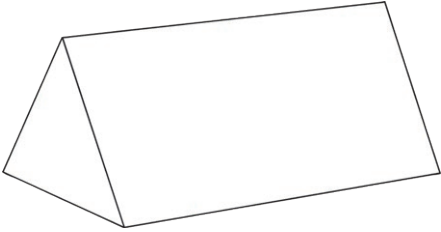

To name and describe properties of 3D shapes.

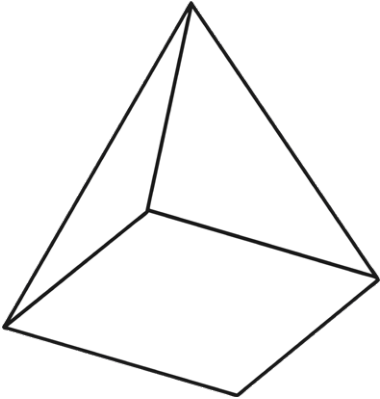

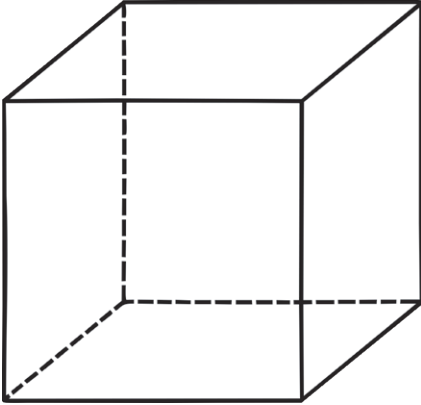

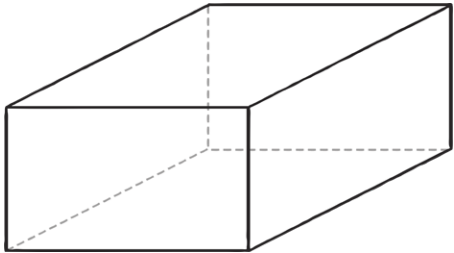

Name of 3D Shape	Name of 3D Shape	Name of 3D Shape
		
It has... edges vertices faces	It has... edges vertices faces	It has... edges vertices faces
Is it a prism? Yes ☐ No ☐ 2D shapes of faces: _____ _____	Is it a prism? Yes ☐ No ☐ 2D shapes of faces: _____ _____	Is it a prism? Yes ☐ No ☐ 2D shapes of faces: _____ _____

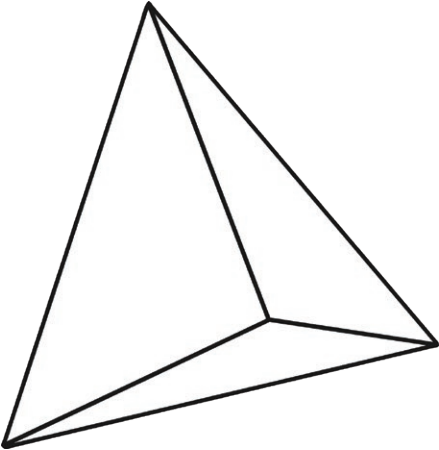

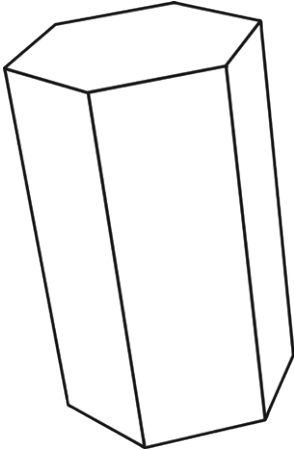

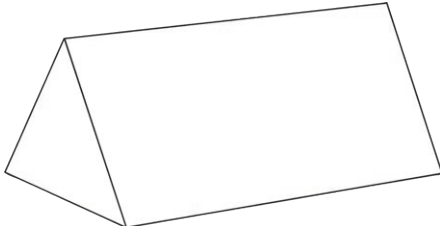

Recognise and Describe 2D Shapes **Answers**

Name of 3D Shape <u>square-based pyramid</u>	Name of 3D Shape <u>cube</u>	Name of 3D Shape <u>cuboid</u>
		
It has... 8 edges 5 vertices 5 faces	It has... 12 edges 8 vertices 6 faces	It has... 12 edges 8 vertices 6 faces

Name of 3D Shape <u>tetrahedron or triangular-based pyramid</u>	Name of 3D Shape <u>hexagonal prism</u>	Name of 3D Shape <u>triangular prism</u>
		
It has... 6 edges 4 vertices 4 faces	It has... 18 edges 12 vertices 8 faces	It has... 9 edges 6 vertices 5 faces

Recognise and Describe 2D Shapes **Answers**

Name of 3D Shape <u>square-based pyramid</u>	Name of 3D Shape <u>cube</u>	Name of 3D Shape <u>cuboid</u>
		
It has... 8 edges 5 vertices 5 faces	It has... 12 edges 8 vertices 6 faces	It has... 12 edges 8 vertices 6 faces
Is it a prism? Yes ☐ No ☒ 2D shapes of faces: 1 square 4 triangles	Is it a prism? Yes ☒ No ☐ 2D shapes of faces: 6 squares	Is it a prism? Yes ☒ No ☐ 2D shapes of faces: 6 rectangles

Name of 3D Shape tetrahedron or triangular-based pyramid  It has... 6 edges 4 vertices 4 faces Is it a prism? Yes ☐ No ☒ 2D shapes of faces: 4 triangles	Name of 3D Shape hexagonal prism  It has... 18 edges 12 vertices 8 faces Is it a prism? Yes ☒ No ☐ 2D shapes of faces: 2 hexagons 6 rectangles	Name of 3D Shape triangular prism  It has... 9 edges 6 vertices 5 faces Is it a prism? Yes ☒ No ☐ 2D shapes of faces: 2 triangles 3 rectangles
