

Coordinates: Reflecting Shapes in the First Quadrant

Draw each new shape when it has been reflected in the line of symmetry. Write the new coordinates of the labelled corner on each shape.

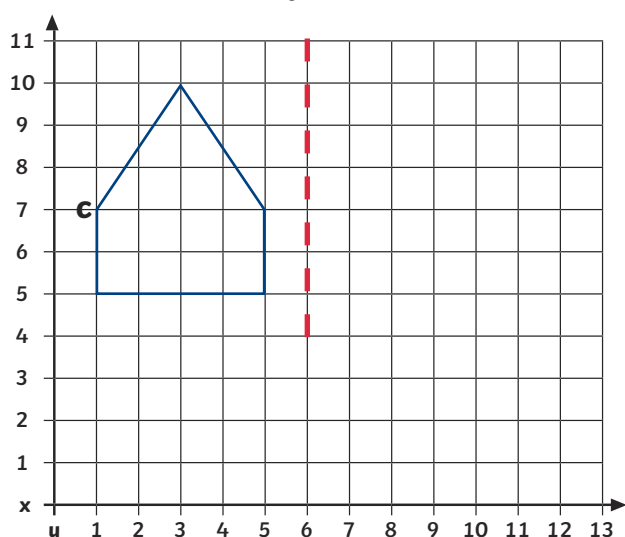

1) New coordinates of corner a =

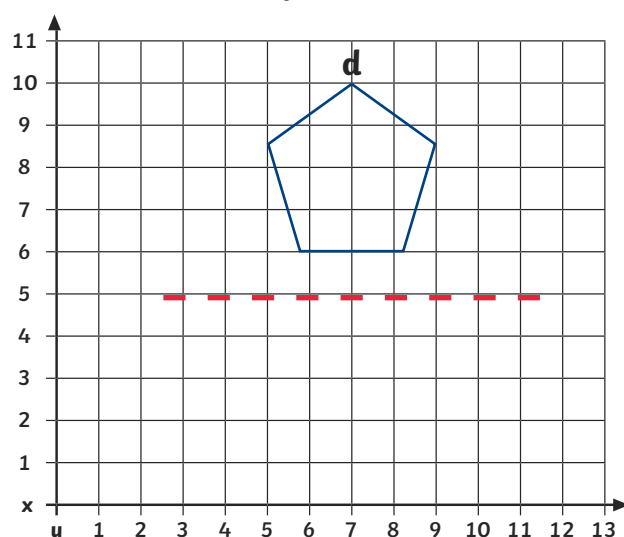

2) New coordinates of corner b =

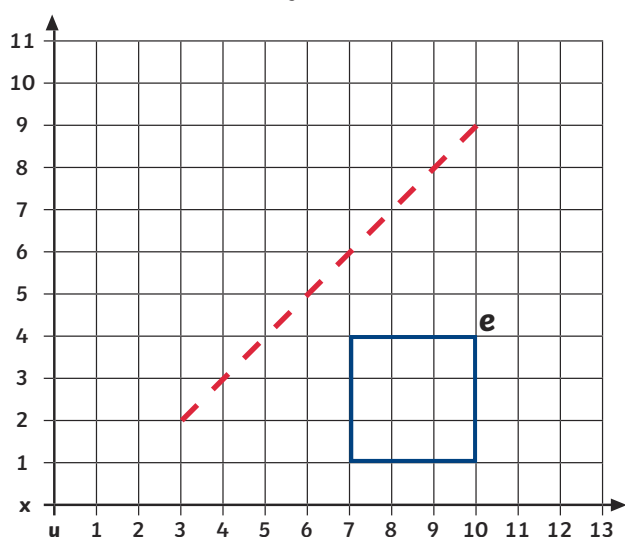

3) New coordinates of corner c =

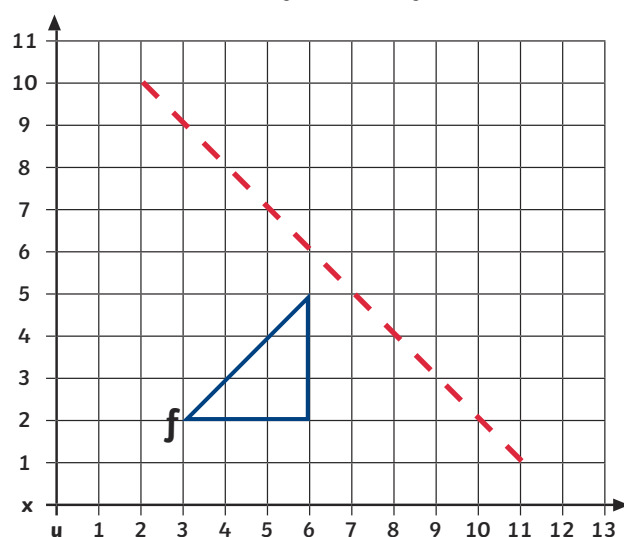

4) New coordinates of corner d =

5) New coordinates of corner e =

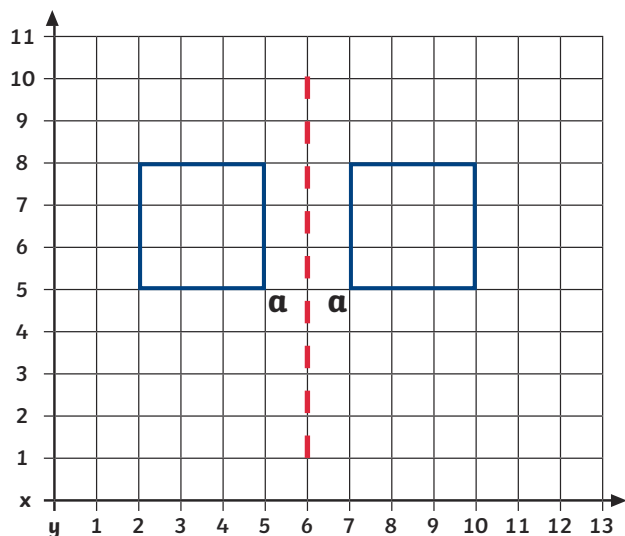

6) New coordinates of corner f =

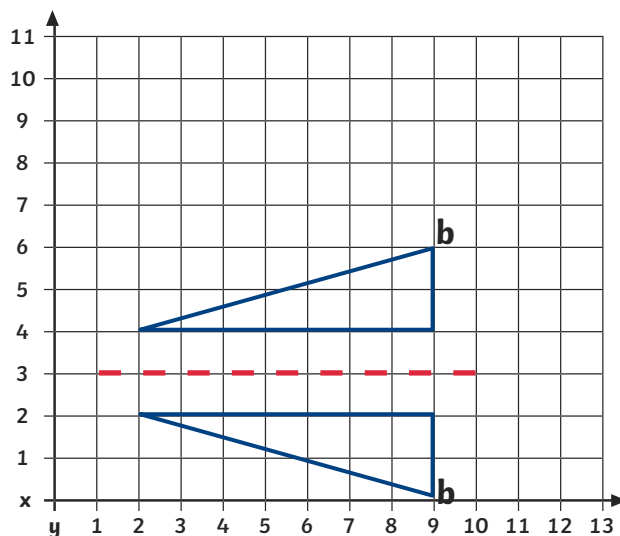

Coordinates: Reflecting Shapes in the First Quadrant

Answers

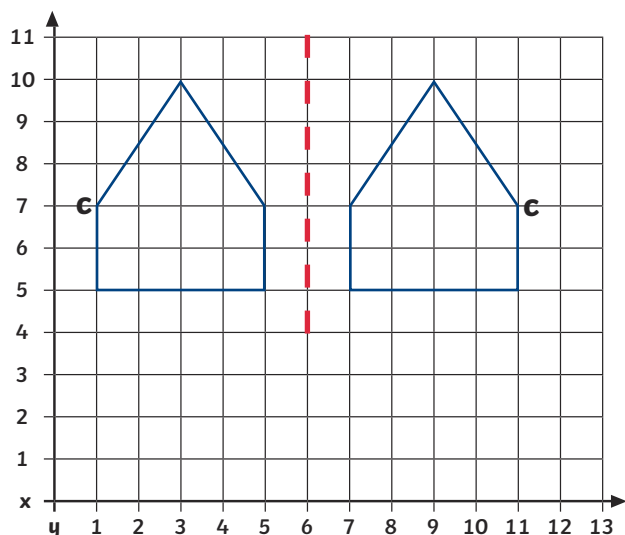

1) New coordinates of corner a = **(7,5)**

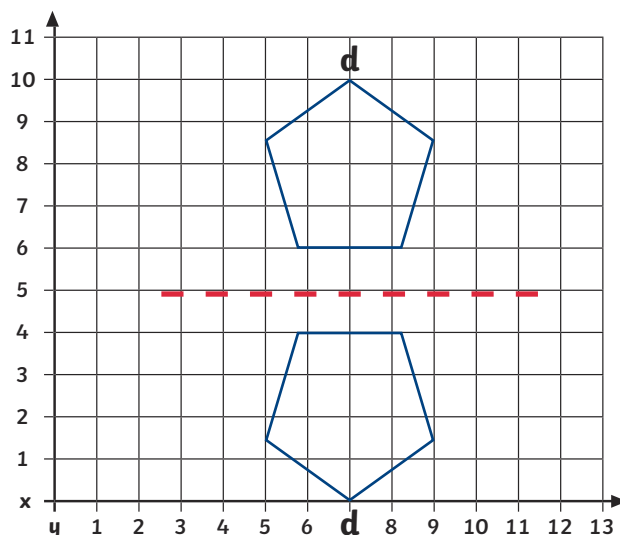

2) New coordinates of corner b = **(9,0)**

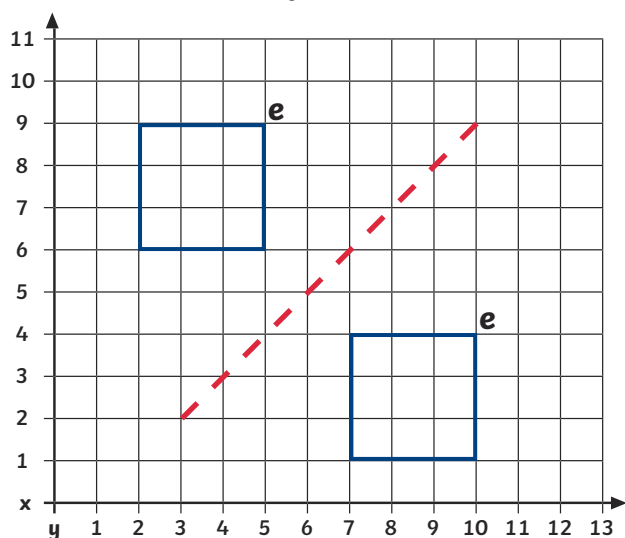

3) New coordinates of corner c = **(11,7)**

4) New coordinates of corner d = **(7,0)**

5) New coordinates of corner e = **(5,9)**

6) New coordinates of corner f = **(10,9)**
