Converting Fractions, Decimals and Percentages Treasure Hunt

Teacher Instructions

Cut out each card and stick them around the classroom. You may wish to show students the starting card. Students will need to read the question, calculate the answer and then find the answer on another card where there will be another question. Students continue until they reach the end. Students will need to record their 'journey' on the answer sheet. Please note that the questions on the answer sheet are jumbled to ensure students calculate the answer to each question properly.

Answers

Question	Answer
Write 10% as a fraction in its simplest form.	$\frac{1}{10}$
Write 0.25 as a fraction in its simplest form.	$\frac{1}{4}$
What is 50% as a decimal?	0.50
Write $\frac{1}{5}$ as a decimal.	0.20
Write 60% as a fraction in its simplest form.	$\frac{3}{5}$
Write 0.80 as a fraction in its simplest form.	$\frac{4}{5}$
Convert $\frac{1}{8}$ to a percentage.	12.5%
Write 54% as a fraction in its simplest form.	$\frac{27}{50}$
Convert 0.90 to a fraction, in its simplest form.	$\frac{9}{10}$
